## A CELEBRATION OF PANAFRICAIN CINEMA

For our 20th edition, The Festival International du Film PanAfricain de Cannes offers you an occasion to celebrate independent filmmaking. This year's edition will be marvelous, filled with emotion and excellent must-see films. Some filmmakers are inspired by existing works, others use cinematographic writing as innovation. This is to be expected. However, they all make cinema! Giving us a breath of fresh air...a PanAfrican world view!!!

## THIS IS YOUR FESTIVAL

This festival is yours. In every moment, you are an active participant in its construction. You have made this festival one of the most wonderful cinema wonders in the world. In order to meet your expectations and support independent filmmakers in the best conditions, we offer you a marvelous cinematographic, cultural, and entrepreneurial experience in 2023.

The FIFP also offers conferences, literary cafés, music, a friendly environment, sharing, a Gala Night, exhibitions, meetings, and more!!! Collectively, this is a chance to share knowledge, make organic human connections through film, sound, and culture without masks or makeup. This is another way to interpret the World.
